## READING AND COMPREHENSION

Read the weather descriptions below and guess in which country it is.

South Africa

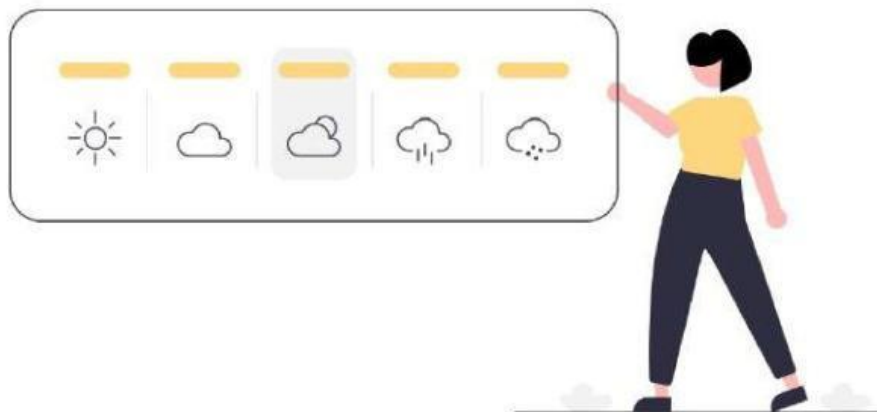

Norway

Brazil

England

1. It is very hot in the summer, it is often 45 degrees. The weather in this country is tropical, so there is a lot of rain. It is very humid in this country. It is famous for having lots of rainforests. It has the biggest rainforest in the world, called the Amazon.
2. It can be very wet because it is rainy most of the year. You need to keep an umbrella with you when you go sightseeing. In the summer, the weather is unpredictable. Some days are sunny, but there can be a lot of rainy days too. The temperature in the summer is quite low - usually between 10 and 20 degrees.
3. It is very dry because it rarely rains. There is a lot of wind, which helps staying cool in the bright sun. The summers are very hot, but the winters can get quite cold. However, it hardly ever snows. Because of the sunny weather and long beaches, it is popular to surf in this country.
4. Don't visit this place if you don't like cold weather. Temperatures are regularly below freezing and many parts of the country are covered in snow. Fog usually comes from the sea during the day. A clear and warm spring or summer day is often ruined by the cold and damp fog.

Now, say which of the countries above have weather that is similar to your country.

## 4 SEASONS

Match the seasons to the correct descriptions

Summer

Winter

Autumn

Spring

1. This season is between autumn and spring, and it is the coldest season. In the Northern hemisphere it is from December to February, and in the Southern hemisphere, it is from June to August.
2. This is the season after summer and before winter. During this season, the temperatures become colder and the trees start to lose their leaves. All the leaves on the trees become yellow, orange and red.
3. During this season, there are more thunderstorms than any other time of the year. A lot of people like this season, because they can spend a lot of time outside. This is the hottest season.
4. In New Zealand and Australia, this season usually starts on the 1st of September and ends on the 30th of November. This is a time when flowers bloom and trees begin to grow and reproduce. The days grow longer and the temperature in most areas becomes warmer.

Now, tell the class which season is your favourite and why.
