CUBIC PROTECTION

A medical emergency at 3 in the morning.
Where do you rush to first?

We believe in an emergency, it's the hospital you should rush to and not ATMs. The last thing you should worry about is the upfront payment. That's why our protection plan covers admissions for all kinds of hospitals.

It may be a little thing, but something you will appreciate in a life and death situation.

A little thought goes a long way.

1. 'A medical emergency at 3 in the morning. Where do you rush to first?'
What is the intended effect of the message? (1 mark)

2. How does the picture convey the intended effect in Question 1? (1 mark)

3. What do you think an 'upfront payment' is? (1 mark)

4. '...our protection plan covers admissions for all kinds of hospitals'. What is the intended message? (1 mark)

5. What do you think the advertisement is selling? (1 mark)
