WORKSHEET - 02

Name: _____

Date: _____

Topic: NUMBERS AND OPERATIONS

Subtopic: SUBTRACTING POSITIVE AND NEGATIVE INTEGERS

concept: Subtraction of integers can be written as the addition of the opposite number. To subtract two integers, rewrite the subtraction expression as the first number plus the opposite of the second number. Then, if both integers become positive, the outcome will be positive; if both integers become negative, the result will be negative.

Directions: Find the difference.
