MY LAST HOLIDAY

During my last holiday, my family and I went on a really exciting adventure to an island. We took a flight to reach the island, and when we arrived, we were amazed by the beautiful beaches and clear blue water. We spent most of our time swimming and building sandcastles on the beach.

One day, we decided to explore an ancient town on the island. It was a fascinating place with narrow streets and old buildings. We walked around, and I learned a lot about the history of the town from my parents. We even visited an ancient temple and learned about the customs and traditions of the people who lived there long ago.

From the island, we took a coach to visit an imperial city nearby. It was an enormous city with grand palaces and beautiful gardens. We explored the imperial palace and learned about the emperors who used to live there. The architecture was amazing, and I felt like I was traveling back in time.

One of the most exciting parts of our trip was when we went underground to explore a mysterious cave. We had to wear helmets and carry flashlights to see in the dark. It was a bit scary at first, but as we went deeper into the cave, it was like entering a hidden world beneath the surface.

To make our adventures even more fun, we rented motorbikes to explore the island. My parents rode one motorbike, and I rode with my sibling on another. We drove along the coastal roads, feeling the wind in our hair and enjoying the scenic views. It was an incredible experience!

Overall, my last holiday was filled with amazing experiences and discoveries. The island, ancient town, imperial city, underground cave, and motorbike rides made it a truly memorable vacation.

I can't wait for our next adventure and the new memories we will create together.
