Home Water Use

Showers	3
Laundry	5
Brushing Teeth	7
Watering grass	9
Dishwasher	11

Did you know?
Home water use makes up about 5% of total water use worldwide.

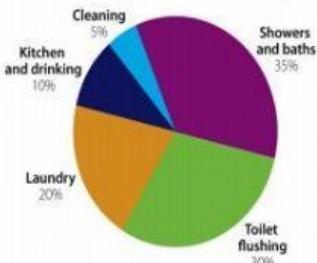

Domestic water use in Canada.

Water Cycles

Every plant and animal on Earth needs water. People use water the most. The more people there are, the more water is used. Water moves through the **environment**. This means water never goes away. We can not get the same amount of water in one place every year. The amount of water on Earth does not change, but in some places there is not enough water, and in others, there is too much. Also, in some places, you might not be able to drink the water because it is **polluted**.

Water use in the home

Water use in the home	
Shower and baths	35%
Toilet flushing	30%
Laundry	20%
Kitchen and drinking	10%
Cleaning	5%

Environment: where a person or animal lives
Harm: to do something bad to someone
Pollute: to put bad things into the water or air

conserve	2,3
environment	6
leak	4
waste	4,8
