

### School

I want to tell you all about my awesome school! It's a place where I learn lots of interesting things and have fun with my friends.

In my school, I have exciting classes like math, English, art, P.E., and music. Each subject is special in its own way.

I have English class on Mondays and Thursdays. English is all about reading and writing. I get to explore wonderful stories, learn new words and even write my own stories.

I have art on every Tuesday and Friday. Art is like a magical world of colors. I get to draw, paint, and create beautiful things. My favorite colors to use are green, orange, purple and pink. I can make orange with yellow and red.

I have P.E on Wednesdays. During P.E, we play games and do exercises. We run, jump, and play sports like soccer and basketball. It keeps me active and healthy.

Music is like a symphony of joy. I have music on Fridays. I love singing songs and learning to play different instruments. It feels amazing when we all come together and make beautiful melodies.

Saturdays and Sundays are my free days. I can relax, play, and spend time with my family and friends.

So, that's all about my school week with interesting subjects like English, math, art, and P.E. It's always exciting to learn something new every day!
