How (NOT) To Give a Presentation

Want to know how to give a great presentation? Here are some Top Tips to help you.

- ★ Begin by establishing how impressive you are. Make sure the audience knows all about your wonderful achievements. Promote your company at every opportunity. After all, this presentation is about you.
- ★ Explain in detail what you are going to talk about, before you get to the main contents. You know how people love reading the table of contents in a book? It builds suspense. It's exciting.
- ★ Get the audience on your side by using that joke you heard last week. It's got a clever double meaning and everyone will understand it and find it hilarious.
- ★ Every slide should be packed with information. Use as many bullet points and words as possible. If you can't fit everything onto one slide, try a smaller font. Feel free to use several slides to explain things properly.
- ★ Read aloud every word on your slides. Audiences have difficulty reading, particularly if the font size is small, and it's your responsibility to help them.
- ★ Summarize everything at the end. Audiences forget things so easily. Spend the last few minutes patiently going over everything they just heard and saw.
- ★ If you run out of time at the end, keep going. The audience paid good money to see your presentation, so make sure they see it all. Your time is important.
- ★ Don't take any questions. The content and quality of your presentation speaks for itself.

Preparing slides

When you are preparing slides for a presentation, it is a good idea to use a dictionary to check spelling. Use of colour, pictures, charts and diagrams can make the slides more interesting. Tips	Examples
Use similar grammar forms on each slide	infinitives: communicate with customers, ask questions gerunds: finding solutions, making a difference nouns: cars, businesses, emails
Drop articles	definite (the): make product (<u>not</u> make the product) indefinite (a/an): send email (<u>not</u> send an email)
Use bullet points	use (•) for main lists: • use car use (▪) for secondary lists: ▪ students
Use pictures and charts	• picture, photo • diagram, table or chart • symbols (e.g. ©)

Talking about slides

When you are presenting a slide, it is a good idea not to just read the words on the slide. Use the slide to help communicate your ideas. Here are some useful phrases for using slides in a presentation.
