

The Three Rs

When you're walking to the rubbish bin
with some in your hand,
you might want to stop and think again.
Can this be or given away?
Let's start looking after our world today!

Reduce. Reuse. .

Do it .

Don't throw everything away
when clearly there's another way.

Reduce. Recycle.

Help to keep our world .

Do your part every day
to make our world .

Recycling is easy when you know what to do.

Paper? Metal?

These things can be reused
again, and again and again!

CHORUS

Compost your uneaten .

Composting isn't hard to do.

Natural things can be reused
when they get a helping hand from you!

Reuse. Recycle.

Do it every day.

Don't throw everything away
when clearly there's another way.

Reduce. Reuse. Recycle.

Help to keep our world clean.

Reduce. Reuse. Recycle.

Help make our world green!
