

INSTITUCION EDUCATIVA HERNAN TORO AGUDELO
TEMA: El plano Cartesiano
GRADO: Quinto

Observa el plano cartesiano

Cada punto en el plano cartesiano puede representarse con un **par ordenado** de números (x, y).

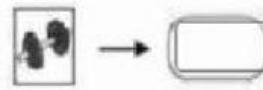

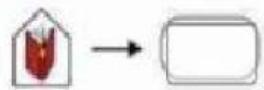

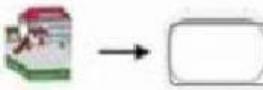

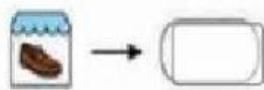

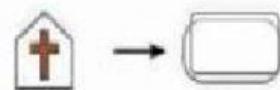

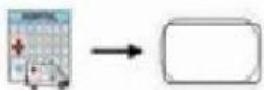

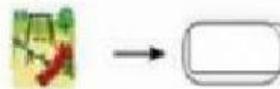

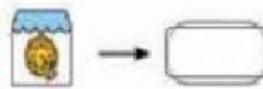

Coordenada x:
moverse a la derecha
o a la izquierda. (x, y)

Coordenada y:
moverse arriba o
abajo.

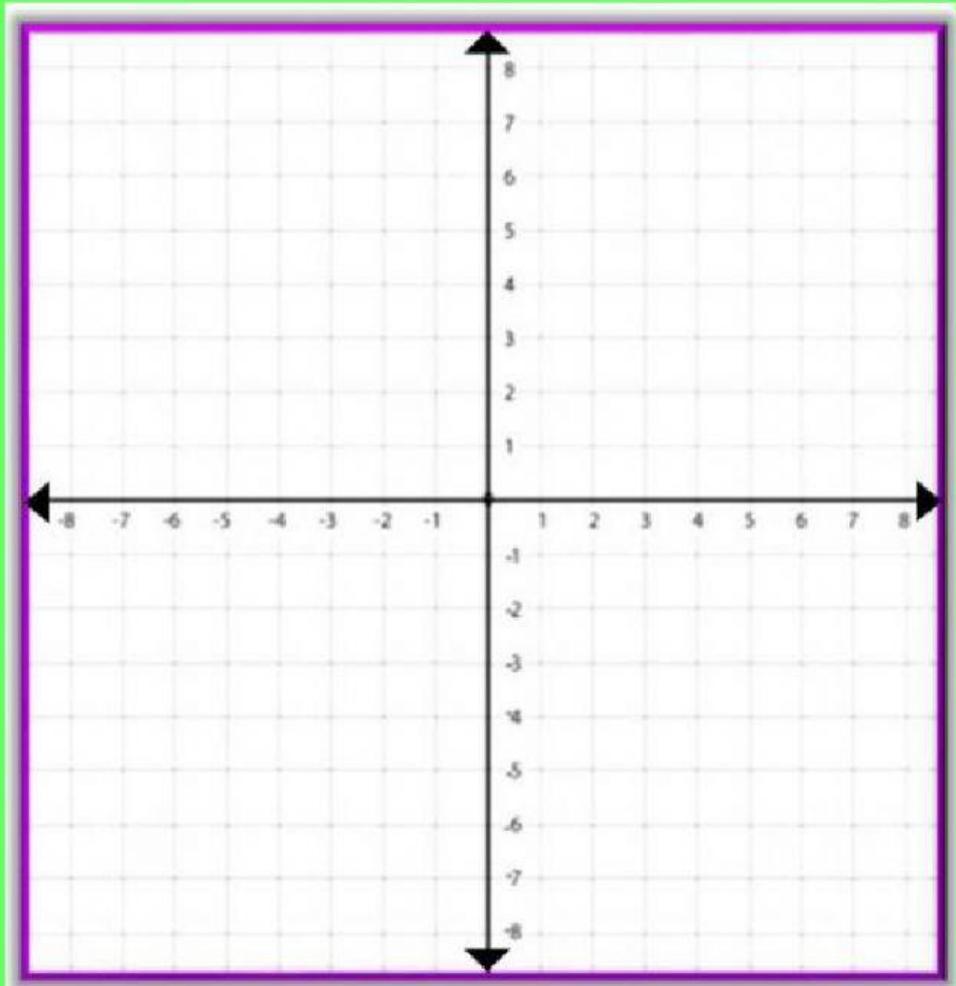

Indica las coordenadas de cada uno de los lugares

Ejemplo

Arrastra cada esfera de color a la coordenada que corresponde y descubre la figura oculta.

A worksheet interface showing a grid of numbered boxes and a central character. The boxes contain coordinates and small colored icons. A character with curly hair and a blue jacket is positioned in the center.

-7, 0	-7, 3	5, 5	-2, 5	0, 3
2, 5	5, 5	7, 3	7, 0	4, -3
0, -7	-4, -3
