

# MARS

Read the text. Choose the right words and write them on the lines.

Mars is the name of the (1) \_\_\_\_\_ planet to ours. People also call it "The Red Planet", (2) \_\_\_\_\_ when you see it in the night sky it looks red.

Our plants and animals can't (3) \_\_\_\_\_ on Mars. It hasn't got our kind (4) \_\_\_\_\_ air. It's also very cold and it has strong winds. A long time (5) \_\_\_\_\_, there was a lot of water on Mars, people think, but now there is no water in the rivers or lakes. There may (6) \_\_\_\_\_ big lakes of ice somewhere on Mars, but people haven't found (7) \_\_\_\_\_ yet.

People have sent cameras to take pictures of Mars, but (8) \_\_\_\_\_ has ever been there. It takes about a year for the camera to get there through space. The photographs (9) \_\_\_\_\_ come from the planet show only rocks and mountains. There have never been (10) \_\_\_\_\_ photographs of little green men!

Mars is the planet most like ours. Perhaps, one day, people may go there to (11) \_\_\_\_\_.
