

Fire Safety

1. If there is fire in your house, you should call the emergency services first, and then leave the house.
2. You shouldn't run, but walk fast.
3. You should take important things with you.
4. You shouldn't close the door when you leave the room.
5. You should take the lift because it's faster than taking the stairs.
6. Fire drills at school teach us what to do in case of fire.
7. It's important to know where exits from the building are.

FIRE SAFETY AND PREVENTION

What do you know about keeping safe? Do the quiz and find out.

1. You want to go to the cinema after school. What do you do?
Tell your parents where you're going.
Don't tell anyone.
Write your parents a note, they will see it later.
2. You are going to cross the road. What do you do?
Run quickly.
Look left and right, then walk.
Don't look, just go. The cars will stop.
3. You climb a tree. What do you do?
Jump from the tree to the ground.
Climb carefully.
Climb quickly, don't look down.

FIRE SAFETY AND PREVENTION

What do you know about keeping safe? Do the quiz and find out.

4. You ride your bike. What do you do?

Wear a helmet.

Cross the road on the bike, it's faster.

FIRE SAFETY AND PREVENTION

What do you know about keeping safe? Do the quiz and find out.

7. Your eyes hurt after playing computer games. What do you do?
Play more computer games.
Go to the doctor.
Lie down and close your eyes.

8. A stranger gives you sweets on the street. What do you do?
Don't take it and go away.
Take the sweets and thank them.
Ask for more sweets.

Tell how to escape from your bedroom and from the kitchen.

From my bedroom go downstairs to the library. Turn right and go downstairs to the living room. From the living room go to the kitchen. The exit is in front of you. If the fire is in the kitchen, go out from the living room window.

Use some of these words:

exit
turn left
turn right
door

smoke
crawl
stairs
lift

bedroom
living room
hall
library
