Choose the correct options to complete the job description.

A PA (personal assistant) gives support to managers or directors. To be a PA, you mustn't / don't have to have any specific qualifications, but you can / must have the right skills and personal qualities. PA must / can have good knowledge of the organization in which they work, and they can / have to know who the important people in the company are. Managers often communicate with customers and colleagues through their PA, so they must / can be good communicators. In the past, PA must / had to have good typing skills, but today this isn't as important.
