

different?

I'm Alefeya. I'm seventeen and I'm from Kolkata in East India. I like to ¹ spend my free time with my friends. Traditionally in India, if you want to do that, you ² visit your friends at home. That's OK, you can talk or ³ play video games together or ⁴ watch videos.

But your parents are always there. So my friends and I prefer to ⁵ go out to Forum, which is a shopping centre in Kolkata. There we can sit in a café, ⁶ walk to the cinema or just walk around. We always ⁷ have a good time. I also spend some of my free time alone. Then I usually ⁸ read books or ⁹ play the piano.
