Ten Tips for “Going Green”

Here are ten tips to help you “go green”. How many of these things do you do every day?

1. Eat fresh, organic products. You will enjoy your food more and you will be healthy.
2. Make things from old bottles and cans. A simple pencil holder made from a cola can is the perfect place to put your pencils and pens.
3. Buy things like clothes and shoes that are made from recycled products.
4. Don’t throw out all your garbage. Recycle it! Recycling helps the environment.
5. Walk to school or ride your bike. Cars pollute the air.
6. Turn off the lights, computer and TV when you leave a room. Save energy!
7. Try to take shorter showers and turn off the water when you brush your teeth – this saves water.
8. Keep your environment clean! Clean up the beach or the park with your friends.
9. Write on both sides of the paper in your notebooks. You will save paper and you will use fewer notebooks.
10. Don’t use plastic bags. Take cloth bags with you to carry your groceries when you go to the supermarket. Plastic bags pollute the environment and they are dangerous too. Animals can get caught in them and die.

Show that you care about your environment and go green!

1. Circle the correct answer, YES or NO.

1. Eating fresh fruit and vegetables is healthy.
2. When you recycle your garbage, you help the environment.
3. When you ride a bike, you pollute the air.
