File Test 10
Reading and Writing A**READING**

Read the article about taking a driving test. Five sentences have been removed. Choose from the sentences A–G the one which fits each gap (1–5). There is one extra sentence which you do not need to use.

Taking your driving test

There will undoubtedly come a time in your life when you face the dreaded driving test. 0 ☐ F In the USA you can drive at 16 in most states, whereas in most European countries the minimum age is 18.

Learning to drive involves knowing a lot of theory and also mastering the practical side of controlling a vehicle on the road. 1 ☐ When I took my driving test, many years ago, it used to be enough to know your traffic signs well and to be able to answer some questions that the examiner would ask you. These days, in many countries the rules have tightened up considerably. Depending on where you live, you will probably have to take a theory test first and then a practical test too.

If you're thinking about taking your theory test, you may have already gone through the application process for a learner's licence, called a 'provisional' licence in the UK. Hopefully, you've also been studying the rule book for some time so possess sound theoretical knowledge. 2 ☐ In Norway and Denmark, you'll also need to know first aid.

The usual kinds of examination tips apply: try to get plenty of sleep the night before and eat a sensible breakfast in the morning. Also make sure you know exactly where the test centre is and how long it takes to get there. 3 ☐ The type of ID you need to show varies from country to country so it is worth researching this carefully.

4 ☐ Take your time and remember to eliminate answers which you know can't be true. In the UK test, answer every question even if you guess some of them. Remember that it's quite common to fail the first time. Figures for last year showed a pass rate of under 50% so don't be too disappointed if you have to retake it.

Once you pass the theory test, there's still the practical test to take. However, you can't do so until you've had some training in a car and in some countries there is a minimum number of driving lessons which you must have before you can book your test. The rules in the UK state that you can be taught to drive by a relative. In fact, anyone over 21 who has had a full licence for 3 years or more can be your driving instructor. 5 ☐ However, the downside is that, unlike an approved driving instructor, the person teaching you might have bad driving habits himself or not be aware of the latest rules. In many EU countries and others around the world, only designated driving schools approved by the government can help you learn to drive. However you do it, I wish you lots of luck!

- A** Each country has its own rules of the road or, as it is called in the UK, 'Highway Code'.
- B** You will undoubtedly be required to prove your identity in some way.
- C** There are lots of free online practice tests you could do to check whether you know enough.
- D** It's not surprising when you consider that 20% of drivers have an accident in their first year of driving.
- E** The benefit of this is that it could save you a considerable amount of money as driving lessons are incredibly expensive.
- F** For some this is earlier than others.
- G** Most theory tests involve staring at true or false and multiple-choice questions on a computer screen and selecting the correct answer.
