Scarcity

grown limited leak conserve

choices earth natural replaced

Fill the gaps in the following paragraph.

Resources are things that we use. Natural resources come from ..... Many of our natural resources are ..... This means that they will not last forever. Some resources are renewable. This means the resource can be replaced or grown. You can plant a new tree when you cut one down. Other resources are not renewable. This means that they cannot be ..... or ..... You can dig coal out of the ground. Once the coal is used, it is gone.

Many of Earth's natural resources are limited, but people can help ..... those resources. When you try to conserve a natural resource, you use less of it, so it does not get used up so fast. One way that people conserve fuel, like gasoline, is by riding a bicycle or walking. This works well when the distance is short. We don't have to drive everywhere.

Water is a very important ..... resource. We all need it to live. We can conserve water by making sure that our pipes and faucets do not ..... We can also conserve water by making smart ..... One choice is to use the dishwasher and washing machine only when they are full. Another choice is to turn off the water when you brush your teeth.

LIVEWORKSHEETS

We can all make a difference!

Think about the colored words, then match.

Resources	- Can finish
Renewable	- This gives power to run things
Limited	- We need to think wisely about it
Conserve	- space
Fuel	- Like natural, capital, and human
Distance	- Can be replaced or grown
Choice	- Keep/protect
