### ACTIVITY 2: Choose the correct words

Anyone who has ended a relationship knows what it's like to **ask someone out / split up with someone**. And of course, there are many reasons for this. Most people in relationships **have arguments with each other / fall in love** when they are angry or upset. It's normal to have moments like these when you are **getting back together / going out** with someone. Sometimes one person **cheats on / goes out with** the other person, and this dishonesty can damage a relationship permanently. But surprisingly, in the UK, 54% of couples who have ended their

relationship in the last five years have **cheated on each other / been on dates with each other** again, because they want to be together. In fact, 3% of couples have **got back together / had an argument** six or more times! Who says love doesn't last?

**ACTIVITY 3:** Personal questions.
