New fashion trends

Here is our report on what clothes are in fashion in Paris and Milan.

This season, girls are wearing long tops in bright colours, with flowery or striped leggings. They aren't wearing baggy trousers and tops.

Dresses are back as well this year – but they aren't long. Girls are wearing short, flowery dresses in bright colours. If you aren't warm enough, you can wear a short cardigan with your dress.

What about boys?

Boys are wearing smarter clothes than last year. They aren't wearing baggy T-shirts or old jeans anymore. Boys are wearing striped polo shirts with long sleeves and cotton trousers with a belt. For the beach, boys are wearing more comfortable clothes. They're wearing long shorts, striped T-shirts and brightly-coloured baseball boots. Blue and red are the most popular colours.

Is that fashionable enough for you? We think so!

My adventure weekend By Daniel Page

Hi, I'm Daniel. Welcome to my blog! I'm at a camp in Wales, near Snowdonia.

Day 1: Saturday

We arrived here last night and got up early today. After breakfast, we cycled to the mountains. The path was very high and after an hour I was really tired. We stopped for a rest at the top. Suddenly, a big mountain goat appeared right in front of us. We jumped on our bikes and cycled back to camp as fast as possible! After lunch, we went canoeing on the lake. There were three of us in my canoe. We weren't very good at canoeing at the start. But in the end, we learnt to paddle in the right direction and work together. Then, Nick saw a big bird and he wanted to take a photo of it. He moved quickly to get his camera. Suddenly, he fell in the water! Tom and I wanted to help him, but the canoe turned over and then all three of us were in the water. It was very cold! Luckily, we were near the camp so it was easy to swim back. When we arrived, we were very wet and muddy! Now we're resting and I'm writing this blog. Tomorrow, we're going rock climbing.
