"Present perfect"

Read the story about the water project in Africa

The water project "Work has been hard"

Anoma has just taken water from the new well. She and the other villagers used to walk 7 km for their water before the water project. The water project has already four wells in other villages; this one is the fifth. The water project has given the money for the wells, but the villagers have done the work themselves. The work has been hard but now there is water for everyone.

Anoma's friend, Enlye, lives 3 Kilometres from Anoma's village, but the project workers are going to help them. They haven't started the well yet, but Enlye knows that life will be easier with clean water. She has seen the change in Anoma's life.

1. Choose true or false according to the text

A) With this project 7 villages have built their wells.

TRUE

FALSE

B) In Enlye's village haven't started the well.

TRUE

FALSE
