GARDEN
BACKYARD
FENCE

Let's revise the words we have on the list. What do they mean?

Now, let's read the text about the haunted house and answer the questions below:

There is a haunted house on my street. It has got a spooky aspect. The garden has got high weeds and there are old crooked trees in the backyard. There is a big rusty fence at the front. The doors are old and wooden and the windows too. During the day, they are always open but nobody lives there. It is always dark inside and you can't see the walls or the ceiling. At night, the doors are always closed and the lights turn on for a strange reason. Some people say they can see shadows through the windows.

Answer the following YES/NO questions:

1. Is the house spooky?
2. Is there a rusty fence at the front?
3. Are the doors closed during the day?
4. Does somebody live there?
5. Are the lights on during the night?
