

Periodic Table Information

Notes: Scientists use *Lewis Dot Structures* to show the valance electrons of an element as dots.

Element (Write the Symbol Below Name)	Period Number	Number of Energy Levels	Group/Family Number	# of Valance Electrons	Draw a line to the right Lewis Dot Diagram
Calcium Ca					Ca
Silicon					Si
Hydrogen					H
Aluminum					Al
Oxygen					O
Chlorine					Cl
Neon					Ne
Sodium					Na
Bromine					Br
