

Phrasal Verbs

¿Qué son los phrasal verbs?

Los phrasal verbs son estructuras verbales compuestas por dos partículas: verbo + adjetivo, adverbio o preposición que sirven para definir acciones o estados específicos.

Gracias a esto, de un mismo verbo, por ejemplo, burn, se pueden crear verbos compuestos muy distintos entre sí:

- BURN OUT (extinguirse)
- BURN DOWN (quemarse por completo)
- BURN UP (causar enojo)

El uso de expresiones nativas durante una entrevista de trabajo pueden ayudar a marcar la diferencia entre los candidatos.
