

## FORMATIVE WORKSHOP

### MATH

Name: \_\_\_\_\_

Teacher: Ariel Camargo

Level: 4th Grade

Date: \_\_\_\_\_

Score: \_\_\_\_\_

### UNITS OF MONEY

A. Complete the conversion measurements.

1

↙ ×5 ↘

| Nickels | Cents                |
|---------|----------------------|
| 1       | 5                    |
| 2       | 10                   |
| 7       | <input type="text"/> |
| 10      | <input type="text"/> |

2

↙ ×10 ↘

| Dimes | Cents                |
|-------|----------------------|
| 1     | 10                   |
| 2     | 20                   |
| 3     | <input type="text"/> |
| 9     | <input type="text"/> |

B. Type the value of the money.

C. How many cents are there?

1 2 nickels =  cents

3 8 pennies =  cents

2 3 quarters =  cents

4 2 dollars + a nickel =  cents

## UNITS OF TIME

D. Complete the charts.

1

| Weeks | Days                 |
|-------|----------------------|
| 1     | 7                    |
| 2     | 14                   |
| 3     | <input type="text"/> |
| 7     | <input type="text"/> |

*(Note: A diagram above the table shows a circle with 'x7' and an arrow pointing from Weeks to Days.)*

| Hours | Minutes                          |
|-------|----------------------------------|
| 1     | <input type="text" value="60"/>  |
| 2     | <input type="text" value="120"/> |
| 4     | <input type="text"/>             |
| 6     | <input type="text"/>             |

E. Compare >, < or =

1 1 day  24 hours

2 4 weeks  30 days

F. Match equal times.

3 days ●

4 weeks ●

2 hours ●

● 120 mins

● 72 hours

● 28 days
