Let's read about this group of friends from the US.
Answer the following questions:

- **What do they like doing?**
- **Why do they go to the forest?**
- **What do they hate doing?**
- **What other activities do they mention?**

BACK TO OUR HOMETOWN:

My name is Ethan and I have a group of friends since primary school. We meet every year for winter holidays. We like doing the only **exciting** thing to do there: camping in the forest. We go there because the town is too **boring**. There aren't any cinemas, there aren't any shopping malls, there aren't any clubs and the only bar there is full of **boring** old people. We hate staying in the town because it is extremely quiet. The atmosphere is rather **depressing** there but we always visit that place. It is perfect to drink, smoke and dance while we listen to music. We always go there because it is a **relaxing** place (if you want to get **relaxed**) and it is **amusing** too (if you want to be **amused**). We put up our tend, make a fire and we start enjoying the moment. We like going fishing and we always go hiking next to the river. If you go on foot the way may be **tiring** but we go there by car so we never get **tired**. I am **excited** because this year we are taking more friends there!
