

Semiquavers and Grouping

The semiquaver is the shortest time value we will meet at Grade 1. Semiquavers have two tails.

separated

two quavers

=

grouped

four semiquavers

=

These notes all equal one beat per group:

1 crotchet

1 beat

2 quavers

1 beat

4 semiquavers

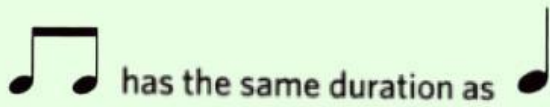

1 beat

EXERCISE

TICK TRUE OR FALSE FOR EACH STATEMENT!

Example:

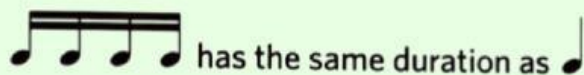

2 quavers

1 crotchet

 TRUE FALSE

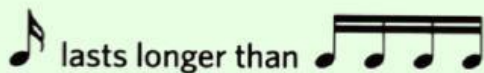

*Since 2 quavers equal 1 beat
And 1 crotchet is also 1 beat,
Then the answer will be "TRUE"*

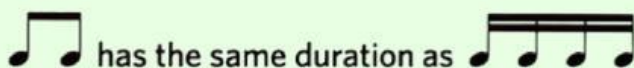

TRUE FALSE

TRUE FALSE
