

Konsep Pembagian

Anak-anak sholih sholihah, simak video pembelajaran di bawah ini ya!

Coba kalian klik kotak di bawah ini!

Jika sudah, yuk kerjakan latihan di bawah ini!

LKPD

Nama :

Kelas :

Contoh :

A visual subtraction problem using apples. A box containing 4 red apples is followed by a minus sign, then a box containing 2 red apples, another minus sign, then another box containing 2 red apples, followed by an equals sign and an empty box.

$$4 - 2 - 2 = 0$$

Ada 2 kali pengurangan, sampai hasilnya 0.

Karena ada 2 kali pengurangan, maka bisa di tulis

$$4 : 2 = 2$$

Latihan

1.

A visual subtraction problem using bananas. A box containing 6 yellow bananas is followed by a minus sign, then a box containing 2 yellow bananas, another minus sign, then another box containing 2 yellow bananas, followed by an equals sign and an empty box.

$$\dots - \dots - \dots - \dots = \dots$$

Ada 3 kali pengurangan, sampai hasilnya 0.

Karena ada 3 kali pengurangan, maka bisa di tulis

$$6 : 2 = \dots$$

2.

Ada 2 kali pengurangan, sampai hasilnya 0.

Karena ada 2 kali pengurangan, maka bisa di tulis $2 : 1 = \dots$

3.

Ada $\boxed{\dots}$ kali pengurangan, sampai hasilnya 0.

Karena ada $\boxed{\dots}$ kali pengurangan, maka bisa di tulis

$$8 : 4 = \dots$$
