

hope and pray	the memories	three years	suns set	fence
couple	thunderstorm	heaven	spending	right here

It's been (1)..... and six whole months since I saw your face that night
 It took five seconds to fall in love and two more to make you mine
 Now it's four in the morning, (2)..... and seven minutes with you and it's (3).....
 Ain't an hour that rolls by, I love you 24/7, 365
 Give you my name, if you wanted to
 Key to my heart if you want it too
 And I (4)..... that you'll stay (5).....
 'til we're old and gray in our last few years
 I'm on a knee I just need a yes
 A (6)..... kids and a picket (7).....
 Share (8)..... like an open book
 Every page I read it still got me hooked
 And I'm fine (9)..... my whole life on everything you like
 Is it obvious that all of this is right?
 'Cause it's been (10)..... and six whole months since I saw your face that night
 It took five seconds to fall in love and two more to make you mine
 Now it's four in the morning, (11)..... and seven minutes with you and it's (12).....
 Ain't an hour that rolls by, I love you 24/7, 365
 I'll share the last bite of every meal
 I'll wipe your tears when you're in your feels
 And I'll hold you close through a (13).....
 When it's cold at night know I'll keep you warm
 'Cause I'm fine spending my whole life on everything you like
 Is it obvious that all of this is right?
 'Cause it's been three years and six whole months since I saw your face that night
 It took five seconds to fall in love and two more to make you mine
 Now it's four in the morning, (14)..... and seven minutes with you and it's (15).....
 Ain't an hour that rolls by, I love you 24/7, 365
 I love you 24/7, 365
 Now it's four in the morning, (16)..... and seven minutes with you and it's (17).....
 Ain't an hour that rolls by, I love you 24/7, 365
