

1. Choose the correct body system

Circulatory System	Digestive System
Respiratory System	Excretory System

The diagram shows a human silhouette with callouts to the following organs: Lungs, Heart, Liver, Stomach, Kidneys, and Large Intestine. To the right of each organ is an empty rectangular box for labeling.

## 2. Label the locomotor system

biceps

wrist

ribs

humerus

shoulder

abdominals

femur

quadriceps

skull

ankle
