

PART - II BIOLOGY LIVE WORKSHEET BS 18

8. What is the temperature used in Pasteurization? ()
 - 1) 62°C for 30 mnts
 - 2) 65°C for 15mnts
 - 3) 70°C for 30 mnts
 - 4) 25°C for 15mnts
9. "White revolution" is related to..... ()
 - 1) Increase in rice production
 - 2) Increase in oil production
 - 3) Increase in cattle production
 - 4) Increase in milk production
10. "Green revolution" is related to..... ()
 - 1) Food grains
 - 2) Aquaculture
 - 3) Milk production
 - 4) Freedom Movement
11. India held this position in eggs production. ()
 - 1) 4th
 - 2) 5th
 - 3) 6th
 - 4) 10th
12. India held this position in the production of chicken. ()
 - 1) 5th
 - 2) 4th
 - 3) 6th
 - 4) 8th
13. "Divine food " is..... ()
 - 1) Fish
 - 2) Prawn
 - 3) Egg
 - 4) Honey
14. "Father of white revolution in India" ()
 - 1) M.S. Swaminathan
 - 2) Prod .J.K. Kuriyan
 - 3) M.S. Viswanathan
 - 4) Prof. Y.V. Rao
15. The purity of milk is calculated by ()
 - 1) Ghalactometer
 - 2) Ammeter
 - 3) Monometer
 - 4) Lactometer
16. "Operation flood " means..... ()
 - 1) Increase in the production of eggs
 - 2) Increase in the production of chicken
 - 3) Increase in the production of milk
 - 4) Increase in the the production of fish

17. Example of sea weeds..... ()
- | | |
|----------------|------------------|
| 1) Agar - agar | 2) Ulva |
| 3) Sargassum | 4) All the above |
18. Calculation of fish in fresh and saltwater is called..... ()
- | | |
|----------------|----------------|
| 1) Aquaculture | 2) Sericulture |
| 3) Apiculture | 4) Agriculture |
19. Pasteurization led to the invention of ()
- | | |
|------------------|------------------|
| 1) Transpiration | 2) Inoculation |
| 3) Vaccination | 4) Sterilization |
20. By which method, milk can be stored? ()
- | | |
|-----------------|-----------------------|
| 1) Fumigation | 2) Drying in sunlight |
| 3) Fermentation | 4) Pasteurization |
