## Going to school in the Australian Outback

The places in Australia that are very far away from the city are called The Australian Outback. In the Australian Outback, children don't walk to school. They don't even take the bus or the train. This is because the school is more than 300 kilometres away.

So how do these children get an education? The answer is simple. These children don't go to school at all! They have lessons on their home computer and speak to their teachers through a web camera.

Children in the Australian Outback are very good students. Maybe this is because it is easier to study away from the hustle and bustle of a big city or maybe computer lessons are more fun than normal lessons. Whatever the reasons, children in the Australian Outback seem to enjoy "school" more than many other children in the world.

- 1 The Australian Outback is close to the sea.
