

Complete the missing words:

WATER CYCLE

Water, water, water, water

'Round and 'round and 'round
goes the Water cycle

Water, water, water, water
Water cycle

Come on y'all, get down with
the Water cycle

Let's do it! Here we go!

, water falls down

Accumulation, water gathers all
around

, water rising from
the ground

Transpiration, plants sweat the
water out

, water turns
into a cloud

And when the cloud gets heavy,

The water cycle just keeps goin'
'round

Precipitation, water falls down

, water gathers
all around

Evaporation, water rising from
the ground

, plants sweat

the water out

Condensation, water turns into
a cloud

And when the cloud gets heavy,
what happens?

It just keeps goin' 'round

Oh, that's really dope, actually

Water, water, water, water
Water cycle

'Round and 'round and 'round
goes the

Water, water, water, water
Water cycle

Come on y'all, get down with
the Water cycle

Precipitation, we're talkin'
sleet, Hail,

oh! Accumulation, into
oceans,

And the ground, you know, you
know it

, that's steam
rising from the spouts

I'd love a spot of tea

Transpiration, and
leaves And stems sweat the
water out

, drops appear
