

Task 1. Watch the video “Street Notes. Fake news” and match the people with the main ideas that they express.

1. 	2. 	3. 
4. 	5. 	6. 

- tells about an organization that helps to filter information;
- can get an idea if the news is credible by how they present data; uses 1 resource to get most of the news;
- prefers to fact check the information with someone who knows the problem better;
- is shocked by how many people believe in fake news;
- believes that if the information looks too extreme, it might be fake and needs to be checked;
- sees a lot of fake news all over the Internet and believes that understanding it is something logical.

Task 2. Watch the video again and discuss these questions.

- How do people usually understand that information might be fake?
- What can be the sources to check out credible information?
- What does it mean “to look up” ?Can you give synonyms?
- Who can create fake news?
- What can you do to protect yourself from fake information?
