

Reading Comprehension: Objects

Objects are all around us, serving different purposes in our daily lives. Let's explore a few of them.

1. The Television: The television, or TV, is a common household item. It is an electronic device that displays moving images and sound. People use it for entertainment, watching movies, TV shows, and news. Some TVs are even equipped with smart features, allowing users to access the internet and various apps.

2. The Bicycle: A bicycle is a two-wheeled vehicle powered by pedaling. It is a popular means of transportation and exercise. Bicycles come in various styles, including mountain bikes for off-road adventures and sleek road bikes for speed enthusiasts.

3. The Microwave Oven: A microwave oven is a kitchen appliance that uses microwaves to heat food quickly. It is a time-saving device, allowing people to warm up leftovers or cook simple meals in a matter of minutes. Microwaves work by causing water molecules in the food to vibrate, generating heat.

4. The Book: Books have been a source of knowledge and entertainment for centuries. They come in various genres, from fiction to non-fiction, and cover a wide range of topics. Reading books not only provides information but also enhances imagination and vocabulary.

5. The Smartphone: The smartphone is a versatile electronic device that has become an essential part of modern life. It combines various features, including phone calls, messaging, internet browsing, photography, and numerous applications. Smartphones have transformed communication and information access.
