1 Read the song review and complete the information in the box.

Ben is a song from Michael Jackson's second album (1972) for the Motown record label. The name of the album is also *Ben*. The song is from a 1972 horror film. In the film, Ben is a killer rat and he meets a young boy, Danny Garrison. The song is about finding a friend.

The words of the song are by lyrics writer Don Black and the music is by Walter Scharf.

The song lasts 2 minutes 44 seconds. Jackson sings it with lots of feeling, and I like it very much. I give it four out of five.
