What is the most popular sport in the world? Football, of course! This is the favorite game in 160 countries in the world. Millions of people play football on the streets, in parks and of course in a football pitch. In Russia this sport is very popular too. Many people play football with friends at weekends and watch it on television. Russia was awarded the 2018 FIFA World Cup on the 2nd of December 2018, hosting the tournament for the first time. The event took place from 14 June to 15 July 2018, in which the Russian team had its best performance since the 1966 tournament, reaching the quarter-finals for the first time since the breakup of the Soviet Union, where they lost to eventual finalists Croatia.

Unfortunately, Russia has never won any football World Cup. That is why Russian fans are very pessimistic. They think up jokes about Russian football players, but deep in their hearts they hope that someday Russia will definitely win!
