

Partner Quiz

Names:

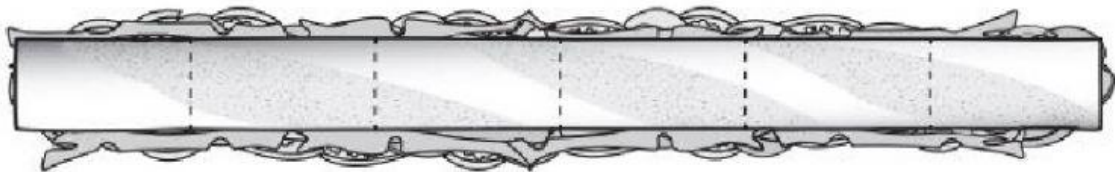

A deli cook makes long submarine sandwiches that are meant to be shared. She cuts the sandwiches into shorter sections. In exercises 1–2, find the fraction of a submarine sandwich each person gets.

1. a. Show how four sections of sandwich can be shared equally by five people

- b. How many sections does each person get?

2. a. Show how six sections of sandwich can be shared equally by eight people

- b. How many sections are there for each person?

3. Use rate tables to find how much each person makes in 1 hour and how long each person has to work to make \$1.

- a. Paula remembers that she worked 20 hours and made \$80.

Hours	1	10	20		30	
Pay (\$)			80	100		1

- b. Ben works 15 hours and is paid \$75.

Hours	1		15	30		
Pay (\$)		25	75		190	1

- c. Kayla is paid \$72 for 9 hours of work.

Hours	1	3		36		
Pay (\$)		12	60		192	1
