

Relembra o algoritmo da multiplicação

$$724 \times 3 = 2172$$

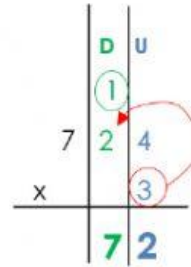

1.º Multiplicar pelo algarismo das unidades:

$$3 \times 4 = 12$$

colocar algarismo das dezenas na ordem seguinte.

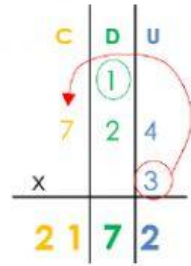

colocar o algarismo das unidades no produto (resultado).

2.º Multiplicar pelo algarismo das dezenas e adicionar o valor transportado da multiplicação anterior:

$$3 \times 2 = 6$$

$$6 + 1 = 7$$

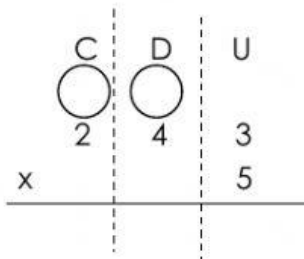

3.º Multiplicar pelo algarismo das centenas:

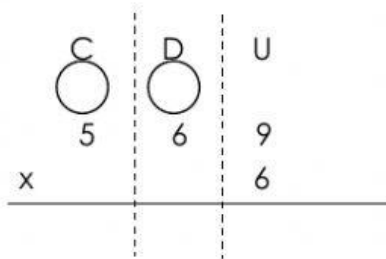

$$3 \times 7 = 21$$

1. Calcula:

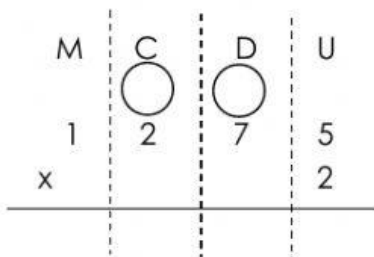

$$243 \times 5 =$$

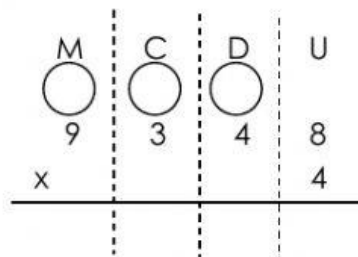

$$569 \times 6 =$$

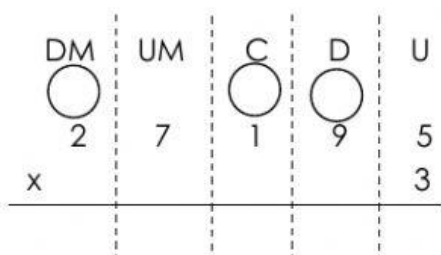

$$1275 \times 2 =$$

$$9348 \times 4 =$$

$$27195 \times 3 =$$

$$58043 \times 2 =$$
