

Hello, my name is Anna and I live in a house in London. I watch TV every evening and I read the newspaper every morning. I make breakfast for my family and I speak English with them. I like cats and I have two cats at home. I study Spanish and I want to visit Spain someday. I have three children, a boy and two girls. They listen to the radio in their rooms and they eat fast food sometimes. I drink coffee in the morning and want a new car for my birthday. I work in a store and I sell clothes. I go to a museum once a month and I learn about history and art.
