ADULTS III Final Exam

1. Reading:

Read about the following free time activity and complete the activities below:

When we study, we spend a lot of time reading. Homework, assignments and papers, academic texts, journal articles, and more. Unfortunately, this means we stop enjoying recreational reading (also called leisure reading or reading for pleasure).

I love reading! The stories I like provide a perfect escape from reality and I can get lost in them. It is also a good excuse for creating communities with other readers. I don't like reading academic text because my leisure reading starts declining. I feel like I don't have time to read for fun. However, when COVID hit I started a virtual world community of readers. A virtual book club with a few people I know from college is what I need. Now, I feel like an active reader again and I love it!
