

My weekend

I usually spend the weekend with my family in our house in the countryside. The house is small but we like being together. Sometimes we don't have privacy but it is fine to share everything in the house. As we haven't got Wi-fi, nor Tv or computers there, we organize many activities like hiking in the mountain, riding bikes or barbecues. In winter the weather is usually bad and we stay together next to the fireplace. I love playing board and card games all together. I always long for the next family meeting in our cottage.
