Daniel Ek said using AI in music will be (9) _____ for "many, many years". He said the biggest problem is when AI copies the voice of other singers. Spotify (10) _____ one song created by the AI platform Ghostwriter. The software copied the (11) _____ of the singers Drake, and The Weeknd. The song was even submitted for a Grammy music (12) _____, but it was rejected. Neither Drake nor The Weeknd knew about the song. Mr Ek highlighted how serious the problem of (13) _____ singers' voices is. He said: "You can imagine someone uploading a song, claiming to be Madonna, (14) _____ if they're not." He said it will be difficult to tell if a song is "sung" by a (15) _____ or a human. He added that the future of music production is going to be "(16) _____".
