Wild animals in Australia

by Conor

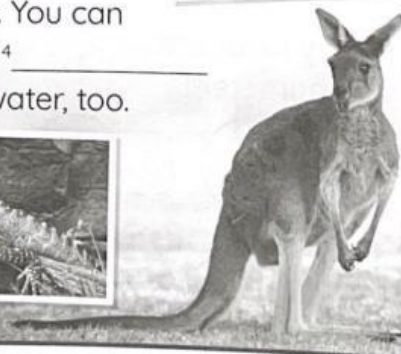

Australia has got amazing wild animals. ¹ Koalas live in trees and they eat green leaves.

² _____ live on land. They've got long legs and they can jump! There are a lot of snakes and lizards in Australia. ³ _____ live on land and in water. You can see lots of colourful fish. ⁴ _____ and dolphins live in the water, too.

My favourite animals are little ⁵ _____.

They eat fish. They live in the water and on land. They've got wings, but they can't fly. Little penguins are great!
