Time lives our lives with us

Walks side by side with us

Time is so ..... from us

But time is .....us

Time is ahead of us

Above and ..... us

Standing beside us

And looking ..... on us

When we were .....

And our bodies were .....

We thought we'd sail into the sunsets

When our time ..... along

Now that we're nearing

The .....of the line

Time has .....

Time would heal

Time will mend and conceal

In the .....everything will be fine

And if we concentrate

Time will heal all the hate

All in ..... time

We ..... on

Drifting on

Dreaming.....

Telling .....

Generally .....our time

Suddenly it's too late

Time has ..... and can't wait

There's no more time
