Oh

It must be more than I you

More than I love you

Be more than on stars

High above you

If words could just hold you

Tell me you me

Oh, just to know you

Tell me you me

I 't have said it (said it)

You have just read it (read it)

In my eyes

, please

Let it be more

Be more

Be more

It must be more you

More than I caught you

Be more than in raindrops

Falling to you, whoa, just to touch you, oh

If words could

Tell me you feel me

Oh, just to know you

, yeah

I couldn't have said it (said it)

You must have just read it

In my eyes

Let it be more

Be more

Be more

Darling, be more

Be more

Be more

just hold you

Tell me you feel me

Oh, just to know you

Tell me you see me

I said it

You just read it

In my eyes

Darling, please

Let it be more
