

Oh You must have just read it

It must be more than I you In my eyes

More than I love you Let it be more

Be more than on stars Be more

High above you Be more

If words could just hold you Darling, be more

Tell me you me Be more

Oh, just to know you Be more

Tell me you me just hold you

I 't have said it (said it) Tell me you feel me

You have just read it (read it) Oh, just to know you

In my eyes Tell me you see me

, please I said it

Let it be more You just read it

Be more In my eyes

Be more Darling, please

It must be more you Let it be more

More than I caught you

Be more than in raindrops

Falling to you, whoa, just to touch
you, oh

If words could

Tell me you feel me

Oh, just to know you

, yeah

I couldn't have said it (said it)
