## E. READING

### Exercise 1: Read the passage and decide whether the statement True or False.

A house is a building that is made for people to live in. It is not a place that can be easily packed up and carried away like a tent or moved like a caravan. If people live in the same house for more than a short stay, then they call it their "home".

Houses have many different shapes and sizes. They may be as small as just one room, or they may have hundreds of rooms. They also come in many different shapes and may have just one level or several different levels. A big building with lots of levels and apartments is called "a block of flats" or an apartment block.

Houses have a roof to keep off the rain and sun, and walls to keep out the wind and cold. They have window openings to let in light, and a floor. Houses of different countries look different to each other, because of different materials and styles.

| Statements                                                              | True | False |
|-------------------------------------------------------------------------|------|-------|
| A house is not easily to packed up and carried away like a tent.        |      |       |
| If people live in a same house fr a short day, they call it their home. |      |       |
| Small houses and big houses have the same number of rooms.              |      |       |
| A block of flats is a big building with lots of levels and apartments.  |      |       |
| Both houses and apartment blocks may have different levels.             |      |       |
| Houses have a roof to keep off the rain, sun, wind, and cold.           |      |       |

### Exercise 2: Fill the blanks with the words in the box.

|      |           |       |         |         |      |
|------|-----------|-------|---------|---------|------|
| with | bathrooms | walls | village | because | move |
|------|-----------|-------|---------|---------|------|

The place you live in is your home, whether it's a house with four (1) \_\_\_\_\_ and a roof, a flat that's part of a larger building or a caravan on wheels that can (2) \_\_\_\_\_ around. The homes in your city, town or (3) \_\_\_\_\_ may look different from yours - this could be because they were built at a different time, and from different materials.

Homes have changed over the centuries (4) \_\_\_\_\_ the way we live has changed during that time. For example, we don't all live in one room (5) \_\_\_\_\_ our horses and cows anymore like the way that the Iron Age Celts did, and it's more common to have (6) \_\_\_\_\_ inside our homes now instead of at the back of the garden like the Victorians in Britain did in the 19th century.
