

General review on the throat letters

the deepest part

ء

ه

the middle part

ع

ح

the closest part

غ

خ

Choose the correct answer :

1-We articulate " خ " letter from the root of the tongue with the soft palate

..... غ

" In front of / behind / next to "

2-Listen & Guess what's the mistake in the هاء ?

.....

"Pronouncing it with hint of همزة / Pronouncing it heavy / skipping its sound"

Match

the middle part
with the epiglottis

has a cutting
sound

from the deepest
part of the soft
palate

a voiceless/elevated
letter
