

To Cats, WITH LOVE

Cats are fun. They are cute, and they are clever, too. Here are the stories of three amazing cats.

Betsy, a piano teacher, has a cat named Nora. When Betsy gives piano lessons, Nora jumps onto the piano, puts her paws on the keys¹ and plays music. "Nora can really play the piano," Betsy says. "She plays better than some of my students." Nora has her own blog and thousands of people listen to her music.

Another amazing cat is Bobo. This huge black cat can "speak" two languages. When there are people around, he meows. When he is alone, he barks like a dog.

Lulu is a white cat with tiny² black ears and a black tail. This cute cat likes to "read" stories. When Irene, her owner, reads a story to her children, Lulu turns the pages for her. "Lulu knows exactly³ when to turn the page," Irene says. Can Lulu read? Irene cannot answer this question.

All these cats come from animal shelters. Visit us. If you adopt one of our cats, you will save its life.
