

Q.1 Fill in the missing boxes with numbers from 1 to 9 by using them just once to get the number given in the circles :

9		7
	6	
	10	3

18

	8	1
2		6
7	0	

12

8	1	
	5	7
4		2

15

10		
5		9
	11	

21

2		
	5	1
4		

15

3		
8		0
	6	5

12

Q.3 Fill in the missing boxes to complete the number towers :

A pyramid diagram with 5 rows. The bottom row has 5 boxes with numbers 9, 4, 11, 8, 10. The second row has 4 boxes, the third has 3 boxes (the middle one is 34), the fourth has 2 boxes, and the top has 1 box.

A 5-level pyramid structure. The base consists of 5 boxes with the numbers 8, 2, 1, 3, and 5 from left to right. The second level from the bottom has 4 boxes, with the number 13 in the first box. The third level from the bottom has 3 boxes. The fourth level from the bottom has 2 boxes. The top level has 1 box.

A pyramid diagram with 5 rows. The bottom row has 5 boxes with values 6, 4, 20, 15, and 10. The second row has 4 boxes, with the first containing 72. The third row has 3 boxes. The fourth row has 2 boxes. The top row has 1 box.

A pyramid diagram with 5 rows. The bottom row has 5 boxes with numbers 7, 3, 10, 5, 15. The second row has 4 boxes, the third has 3 boxes, the fourth has 2 boxes, and the top has 1 box. The number 63 is in the second box of the fourth row.
