Text 1 **A** Read the poem.

My family

Sometimes families drive people crazy,
But mine is always there for me.
They're the people I love best.
They're my fantastic family!

My brother Tom studies at HKU.
He's the most intelligent person I know.
He's patient when I don't understand.
My brother is my hero!

My sister's hobby is chatting.
She always has something to say.
She doesn't get angry, she's so relaxed.
Nothing can spoil Sally's day!

My mum is very considerate.
She takes care of us all.
In her free time she loves shopping.
Her favourite place is the mall!

My dad works hard at the office
But he reads me a story each night.
He listens to my problems and
Tells me everything will be alright.
